The Online Gambling Market size is expected to grow from USD 60.74 billion by 2028, at a CAGR of 11.

There has been a rise in the popularity of draw-based and scratch-off instant games, especially across European countries, which may positively impact the growth of the market studied.

Casino gambling has been one of the rapidly growing gambling categories, owing to the convenience of usage and optimal user experience.

With the advent of technology, virtual reality, blockchain, and mobile platforms

have been widely implemented in the gambling industry worldwide.

Furthermore, various companies are concentrating on advancing innovative platforms to cater to several requirements and needs of customers to achieve a competitive edge in the market.

For instance, in 2021, Entain PLC declared the launch of Gambling Responsibly America in the United States, a dedicated gaming app.

The above-mentioned factors are expected to benefit the market positively.
