

# ysl black bag replica

So where do you start and how should you go about it?

Start by making a list of what you need (as opposed to what you want) and needs will include all your daily and monthly living expenses which you must take care of (usually with the salary from a job for most people).

For starters, focus on the 'needs list' only, and when you have achieved that you can then set your sights on your 'wants list'.

\$10,000 a month breaks down to =  $\$10,000 / 4 = \$2,500$  a week

For baccarat, it will then depend on the strategy you intend to use to achieve your objectives.

To make \$50 a session is relatively easy with the right strategy and bankroll.

You should use a spreadsheet to keep track of your bankroll and session progress

, taking into account occasional withdrawals to meet your needs and so on.
