Game developers are constantly developing new ways to make it more interactive; it started with a basic live video feed of your blackjack dealer throwing the cards down on a table.

While the streaming can lag on a 4G connection, the newer Android and iOS devices (that we use) 4G connections are sufficient to enjoy live dealer blackjack (r) Tj T* BT /F1

For many people, the concept of playing blackjack anywhere but in a grand casino is an alien one, and replacing the table, dealer and other players with a computer screen and a mouse is still something many gamblers cannot fathom.

We see this with sports betting, and are seeing it more and more with the hundreds of available and secure online casinos.
