Sports betting software can help you find the best lines and odds, uncover arbitrage

opportunities, and much more.

5 passing yards at -140 but one has the odds at -110, you can assume that there

is positive expected value (EV) from betting this.

Sportsbooks will sometimes offer odds boosts on specific games and markets, increasing

the original odds by 10% to 40%.

Still, many odds boosts can create a scenario with the positive expected value, as

they often completely eliminate the sportsbook's juice.

Apart from the intro offer, sportsbooks provide many other promotions regularly.

Cash back is another common ongoing promo that allows you to get a portion of your

losses back after a given period.

Finding arbitrage opportunities is very difficult, and calculating the required

stake can be even harder.
