co/SYwYIedeNy - The Promoguy (ThePromoguy123) May 12, 2021

In my opinion, it is better to keep this an enjoyable hobby and make a little bi

t less in the long run than to have it control your life and make slightly more.

You can bet \$100 on Trout to hit a home run to win \$300.

67 Trout No HR -275 \$293.

If you are able to make \$90 in cash for every \$100 free bet over the long run y

ou would be converting at 90%.

The caveat here is that betting on +900 underdogs often comes with heavy vig (lo) Tj T\* BT

ion.

6% of road teams went up by 10 at some point.

BCCS UPDATE - NOVEMBER 2022

It was a successful event: we hosted a walking tour of the Birmingham Jewellery

Quarter; long-standing members met up for a chat and new joiners were introduce

d; hundreds of compacts were bought, sold, and swapped; there were raffle prizes

galore; and an engaging talk by our guest speaker Ben Cooper of &#39;Bargain Hu

nt&#39; fame.

I t&#39;s hoped that the next Convention will take place as usual in early Octo

ber , but there are as yet no firm plans, with location, venue and speakers stil

l to be determined.

Throughout the year, some of our Regional Groups were able to meet up again in

person.

Compact themes are also announced at the beginning of every month as an activit

y for the Group.

Examples of recent monthly themes were &#39;My Fair Lady&#39;, &#39;The Max Fac

tor&#39;, and &#39;Continental Cousins&#39;.

In addition, so far this year we&#39;ve had two issues of our colourful and info

rmation-packed &#39;Face Facts&#39; newsletter: Spring 2022 with a travel and ad

venture theme; and Summer 2022 with a Platinum Jubilee theme.

In keeping with these challenging times, the BCCS hasn&#39;t raised membership p

rices for 2022/23 (April to March), and it remains excellent value.

American odds are a bit confusing on their face.

A \$250 bet on the Celtics on the moneyline, meaning if they win the game by any

margin the bet wins, would win \$100 (plus a return of the original \$250 bet).

A \$100 bet would win \$280, in addition to the original \$100 bet.Fractional odds

Decimal and fractional odds are more common outside the United States, but can b

e found in some American sportsbooks as well.

Fractional odds are, as the name indicates, displayed as fractions, like 3-1 or

7-4.

The decimal odds would be listed at 1.

87, which would make for much easier math on this \$10 bet.

Much easier, right? The return would be \$18.

For a long time, Nigerians have been exposed to a variety of schemes and platfor

ms thatinvolve people gambling in the hopes of getting larger returns on their
